

The consequences of 2020, written by David Kyes
(Originally was going to be sung along side the animaniac world song, but I have no talent)

Drone strikes at airports
Taal Volcano erupts
And Floyd Protests occurred

Australia's on Fire
California is burning
Just like on November 3rd

Oil prices plummet
Flash floods appear
And Covid's running amuck

Killer Hornets prevail
A Trains derails
Another earthquake has struck

Corona, Corona, Corona, Corona,
Everybody's in quarantine
Death tolls rise, protests surmise
Until someone finds a vaccine

Missionaries in Niger
More warning shots
Impeachment of president Trump

The Maxwell arrest
Chadwick Boseman's death
The economy's fell in the dump

No summer olympics
Fun Mystery boxes
Pakistanian Airliner Crash

Basketball Crisis
Are we still fighting Isis?
And the Ammonium Nitrate Flash

Twenty, Twenty, Twenty, Twenty
It's been a hell of a year
Human's demise, World crisis arise
It's something we all needed to hear
