

Your Stay is Not Welcome

You once were something no one feared
No one knew what you were
Freedom to go about our day
No worries at all

Then you showed up with no invite
Now all I hear is your name

One by one you struck and made your mark
You have done the unthinkable

Everyday cases go up and up
No improvement at all
When will this be over?

Sanitize
Disinfect
Wear a mask
Social distance
Quarantine
Stay at home
Be cautious
These words repeated on a day-to-day basis

You have taken away too much
I've had enough

Senior Prom? No
Graduation Ceremony? No

Summer Vacation? No

Freshman year college experience? No

What's next?

Worst of all

You took away innocent lives

Friends

Family

Neighbors

Health care workers

This has gone too far

All we can do is hope.

Hope for a vaccine

Hope for those suffering

Hope I'm not next

Hope for a miracle

Your stay is not welcome.
