

March 13, 2020

Today starts the first day of the pandemic. I found out that I will be online for 2 weeks after spring break. I decided to move back home for the next 4 weeks and not live on campus anymore. I had to pack enough clothes for awhile and all the school supplies I need for class online. It was a hard day because this might be my last day on UW-River Falls Campus and won't be able to see my friends I made in UW-River Falls everyday anyway.

Today is my 20th Birthday. This year is unusually year usually I have a celebration with all of my family members, but this year I could only have the family members that lived in my house to celebrate. I had to work until noon at the daycare. I got to eat ribs and baked potato. Even though it been a tough year this family time has been very good.

Today was a very exciting day. One thing a lot of people have been doing in this pandemic is get a puppy. Today I got a golden retriever puppy named Willow. She is so cuddly and so sweet. I know she will be so much joy to our family. Our 4-hour drive home with Willow was so much fun. It is going to be interesting having 2 dogs in the house and 1 older cat.

Yesterday I started having symptoms for Covid-19. Today, I have been doing a lot of schoolwork, but It has been hard to focus on doing schoolwork. I have had a headache most of the day. I had a fever today. Overall, I have had to rest and rest some more. Late that night I found out that I tested positive for Covid-19. e
