

Interviewee: Miguel (pseudonym)

Interviewers: Claire

Date: April 14, 2021

Format: Audio Recording

Location: Wisconsin

Transcription and translation by: Micaela Miralles Bianconi, Emily Christensen

Additional equipment used: Rev.ai

Project partner with: University of Wisconsin-Eau Claire

Abstract: This is an interview following up after the interviewee received the first dose of the Covid-19 vaccine. Questions are asked about the side effects of the vaccine, the changes in their everyday lives, their feelings about receiving the vaccine, the attitudes of their boss and co-workers, the opinion that they have about the vaccination campaign being carried out by the state of Wisconsin, and his suggestions for the future of the clinic.

00:00:01 Claire

Is it okay if we start recording the interview?

00:00:03 Miguel

[murmur in agreement]

00:00:04 Claire

Okay. To start, today is April 14, 2021. There are 31,076,891 confirmed Covid-19 cases in the United States, and there are 559,741 deaths. In Wisconsin there are 586,632 confirmed cases of Covid-19, and 6,690 deaths. To start [sound of papers] the questions, how has your experience been with the first dose of the Covid-19 vaccine?

00:00:51 Miguel

It has been normal, no problem.

00:00:53 Claire

Okay, did you feel sick?

00:00:57 Miguel

No. [conversation in the background]

00:01:00 Claire

Does your boss support receiving the vaccine?

00:01:03 Miguel

Yes.

00:01:04 Claire

Okay, and what about your co-workers?

00:01:05 Miguel

They do too.

00:01:06 Claire

Okay. I know you do not feel sick, do you know someone who has been sick after receiving the Covid-19 vaccine?

00:01:16 Miguel

No.

00:01:17 Claire

No, okay. Why did you decide to come back to the clinic today for your second dose of the vaccine?

00:01:27 Miguel

Well, to be sure I'm going to be okay.

00:01:29 Claire

Sure, for protection.

00:01:27 Miguel

Yes, for protection.

00:01:29 Claire

Has your daily life changed after you received the vaccine?

00:01:37 Miguel

No, it is normal. Working, is all in order.

00:01:39 Claire

Ah. Do you feel more confident spending time with other people after receiving the vaccine?

00:01:49 Miguel

Yes, because I feel that I am protected. [voices in the background] [conversation in the background]

00:01:51 Claire

In my opinion, I feel more confident spending time with other people when those people also have the vaccine.

00:01:30 Miguel

Me as well.

00:01:32 Claire

Ahm, did you know that the state of Wisconsin has the fastest response to the release of the vaccine?

00:01:37 Miguel

No, I did not know that.

00:01:39 Claire

Ah, what do you think about this?

00:01:49 Miguel

It is good, well, I suppose that it is. Well, they have been working very well. It is very good that they work for the good of all.

00:02:23 Claire

Ahm. Do you have any opinion of the other forty nine states that are behind Wisconsin with quickly responding to the release?

00:02:37 Miguel

Well, no, normal- well because they should always be ready to advance in the same way.
[stammer]

00:02:45 Claire

What do you think about all of the nursing students that administer the vaccine?

00:02:53 Miguel

Well, it is good. Because it makes it easier for me, I don't have to go farther. I only have to go nearby. It is good for me.

00:03:00 Claire

How was it coming to the clinic today, and for the first time? What way was it good or bad?

00:03:06 Miguel

Good, it's good. Yes.

00:03:08 Claire

There was no problem?

00:03:10 Miguel

No, it is all good. [conversation in the background]

00:03:12 Claire

Ahm. One more question. Do you have any recommendations so that we can better the clinic in the future?

00:03:21 Miguel

No, I believe that it is all good. No. Nothing to improve. From my point of view, all is good.

00:03:26 Claire

Good. This is the end of the interview. Do you have any more comments?

00:03:30 Miguel

No, thank you for helping me, and I hope that you continue to help more people so that we all are well. Because we all need to be well so that nobody is sick and less people die, it is better for everyone to be well. Thank you. Thank you, really. [voices in the background]

00:03:41 Claire

Thank you very much.
