

I first heard about the Coronavirus when I was at church. They said that people were getting sick and I felt sad for them. Not much changed for me because China is far away. My parents were nervous that it could spread here.

Dear journal,

When I found out when school was going to close it was over the weekend. The governor told us about it on the news. when I got to school on Monday, March 16th my teacher told us to bring our stuff home. Mrs. Bartel told us to bring home our iPad, key board, and charger, and our library books.

I felt sad when I found out. I was nervous that we won't go back to school and then I wouldn't get to see my friends and teachers.

When I found out it was extended until May 22nd I felt sad. I miss my friends and I miss hot lunch, especially cheesy breadsticks!

This is how I survived Covid-19...

From,
Addie

Dear Journal,

My first day of homeschool was on Tuesday, March 17th. We started our day at 9am by filling out our agendas. Then we looked at Canvas for assignments. Our first subject we did was math. I liked it because I did multiplication. Another subject we did was art class.

We did canvas painting and I painted.

Doing homeschool is great because I can sleep in and I don't have to get dressed. And also I get to play outside through out the day. I like having my mom as my teacher.

The best part of it is practicing keyboarding, math, and art class.

That is How I survived Covid-19!

From,
Addie

Dear journal,

Since Covid19 most places are closed except doctors, grocery Stores, banks, restaurants. At restaurants you can only do pick up or drive through, you can't go inside to dine. Mail carries are still delivering mail to us, but can't hand it to us. They have to leave it at the door.

Grocery shopping is hard because a lot of things aren't in stock. Things like soap, toilet Paper, some food, and gloves. We have to wear masks when we have to the store and we have to stay 6 feet away.

I see people go for walks but they are staying apart. Some people seem nervous but most are trying to be happy and enjoy their time.

That's how I survived the covid19

Addie

Dear Journal,

I feel sad that we can't go back to school and to places. It is the craziest time ever. we have never been quarantined before. My mom and dad has never been quarantined before either!

I miss school because all of the friends and my teachers are nice. I miss my classroom and miss asking my teacher questions or for help. I also really miss playing on the playground.

My dad usually works at the bank but now he has to work form home now.

That's how I survived the covid19

Addie

Dear Journal,

Since we have been home, our life has changed a lot. We can't go into stores only my mom and dad can go in stores. We can't go out to eat only pick up or drive thru. Now we have to wear masks when we go in to places now.

My mom and dad told me to keep Social distance when we go outside to play. They also remind you to wash your hands for 20 seconds, so I like to sing a song. They tell us to not touch our face.

This is how I survived Covid-19.

Addie

Dear journal

This is my daily schedule since the Coronavirus. At 7 o'clock I wake up and eat breakfast. Then, I play school with my stuff animals. After that I get dress for homeschool.

At 9:00am I start homeschool. I start with math on Waggle and sometimes do worksheets. I usually do foundations on Waggle, too. Then we do MAPE classes until lunch time.

After lunch, we get a big break. During this time I play outside or do coding on Scratch. When it's raining outside I play in my room with my dolls usually.

At 1:00pm I read for 20 Minutes and do writing. Then at 2:00pm school is done.

That's how I survived the Covid19

Addie

Dear journal,

I saw a while ago on the news that a lot of people in New York City have the Coronavirus. A lot of them had to get tested so they set up testing sites. Some people had to wait hours to get tested. There were so many people sick that the hospitals were full. I saw two and three people are in one room. I even saw some beds in The hallway!

I am very thankful that Wisconsin is not as bad as New York and I hope it ends by July 1st.

That's how I survived the Covid19.

Addie

Dear journal,

My online schooling is going well but I miss going to regular school because I miss seeing everyone and all of the teachers and I miss asking my teacher a lot of questions

My subjects I have to do is math, reading, writing, foundations, but my favorite subject of all time is math.

Yes I have a lot of questions. This is my question about the Coronavirus when will the Coronavirus end? I hope it ends soon because I am sick of having to be home every single day. I am also Nervous that my grandma and grandpa might get the Coronavirus

My grandma and grandpa could die from it.

That's how I survived the covid19

Addie

Dear journal,

This is my daily routine for school. First, I wake up then eat breakfast. Next I brush teeth and get dressed. then I brush hair and finally I start school.

I start my school day when I read 20 minutes. Next I do my I survived the covid19 journal. Then I type my Apollo 11 on goggle docs. Lastly, I go on Waggle for 20 minutes for math an then for language.

That's how I survived the covid19.

Addie

Dear journal,

A while ago the president announced that there is no more traveling to other countries. Then they asked that to not travel to United Kingdom until the Coronavirus is done.we were supposed to go to California

For our trip on spring break. We were supposed to se Disney land and see the San Francisco zoo and go to Palm Springs to see the road runner.

That's how I survived the covid19

Dear Journal,

One of the positive things that has happened that I was on tv! Back in March I sent in a question to Nickelodeon about the Coronavirus and they chose me. Nickelodeon had an hour long show called Kids Together a Nickelodeon Townhall. They told kids about the virus and answered our questions.

It was a video about the Coronavirus. The question I asked was how long dose the Coronavirus last.

That's how I survived the covid19

Addie

Dear Journal,

My parents told me that I had to stay 6 feet away from everyone except family members. Also my parents told me that kids aren't allowed to go In stores and kids can't play at the playground.anymore because at playgrounds you can get sick so easily.because a lot of kids touch things at the playground then the next kid touches it.

That is how kids can get sick. So now they put caution tape all over the park because so kids can know enough not to play on it.

That's how I survived the covid19

Addie

Dear Journal,

Yesterday was my dad's birthday. We had family over for cake.It was so much fun. of course we had to stay 6 feet away because so my grandma and grandpa might die if they get the Coronavirus. We do not want our grandma and grandpa to die from the Coronavirus.

But it still was a lot of fun also we had my aunt and uncle come over to. for breakfast on my dad's birthday we got Dunkin' Donuts. For dinner we got Arby's.

That's how I survived the covid19

Addie

Dear Journal,

Today my baby cousin named hallie is coming over for lunch. for lunch my grandma is going to bring us pizza. The place my grandma is getting it is a surprise it also my grandma is coming over for lunch today to don't panic we are social distancing.

I am so excited to see my little cousin hallie today it will be so much fun.

That's how I survived the covid19

Addie

Dear Journal,

Yesterday I had a social skills group conference call with Mrs Carey. It was just me and another kid I did not want to use kid's name. At the conference call we talked about middle school.

Today It's going to be a crazy day today because I have a lot of conference calls today.

I have one at ten o'clock through ten thirty with Mrs. Carey. At ten thirty through eleven o'clock with Mrs. Seefeldt alone. Then at eleven o'clock though eleven thirty is a conference call with three or four kids with Mrs. Seefeldt and the Delong speech teacher

Then at two o'clock through two thirty is my conference call with my teacher and my whole class.

That's how I survived the Covid19

Addie

Dear Journal,

Today I went to my aunts house and then we went to her private beach. We went with my grandma and my brothers and my mom. My baby cousin named hallie and my oldest cousin named Jonah and my other cousins were supposed to go, too but they couldn't. they couldn't find a way for my little cousin to nap. Their names are Noah, Emmy, Zach, and Benji and of course my other aunt was supposed to go to.

While we were there we swam and played in the sand. I also jumped off the dock. I had so much fun!

That's how I survived the covid19

Addie

Dear Journal,

On Saturday I went to my grandma and grandpa's house for their anniversary. It was so much fun with a lot of family members. I got soaked and wet because I was playing with my cousin's dog. Before it rained we took a family picture.

It was so much fun hanging out with our family members.

That's how I survived the covid19

Addie

Dear Journal,

In Minneapolis there have been riots this week. It started because George Floyd was killed by a police officer. This makes me feel sad and scared because I know people there. My cousin, Jonah and his family live on 38th Street about 3 blocks away.

Some things that are happening during the riots are people burning buildings and looting. Others are having peaceful protests. I wish we can have a regular life.

That's how I survived the covid19

Addie

Dear Journal,

On Wednesday we went to our cousin's house in Minnesota. First we went to pick up Chick-fil-A. Then we went to our cousin's house to play. They live in Savage. Then we played outside in their pool with a water gun fight. Then we went inside to play for a little bit. Finally we went home.

That was a fun day with our cousins.

That's how I survived the covid19
