International Association of Jazz Educators

IAJE is a worldwide organization which is continually growing due to the increasing importance of jazz in education and in society. Some of the main goals of the organization are to enhance jazz education, promote jazz music and teach jazz. At UW-Eau Claire, our chapter formed in February of 1994. In one short year, we've become very active at the University and in the community. Some of the activities we have done include doing clinics at area high and junior high schools, playing for university functions, donations of money for scholarships and needs in the jazz studies area, running the Jazz Festival, doing educational research projects, providing speakers and clinicians to speak to our jazz studies area, social events, and many other activities including this recital. Our chapter is one of the largest in the country. We hope to continue to grow and support jazz in Eau Claire.
