

Covid Haikus

#1

The haikus I'll write
Correlate to my stages
Of Covid-19

#2

There is excitement
Something new is going on
What is happening?

#3

Is this even real?
Wait, it's affecting me now?
It's actually real?

#4

Finally, stress-free
Everything is fun and games
No more work or school

#5

I need a routine
Something to add normalcy
To this changing life

#6

Each day is the same
Monotony is my life
How do I push through?

#7

When will this be done?
It seems to be forever
I think it is soon

#8

It is now summer
School is done and I am too

Opportunity is gone

#9

I did something bad
Four different states in ten days
I have to hide it

#10

Back home for good now
It's been an entire five months
School begins again

#11

Everything is hard
Novelty wears off for good
It just needs to end

#12

Frustration rises
Everyday the cases grow
The people don't care

#13

There is no attempt
To cover one's selfishness
It's acceptable

#14

It gets worse and worse
Nothing that I do will help
Or that's how it feels

#15

The stress overwhelms
The expectation to push
It is all too much
